

Staying where you are with a little help

# Disabled Adaptations

Salford Housing Options

**Are you finding it difficult to get around at home?  
Do you have a disability?**

**The specialist housing team may be able to help you.**

## What is the specialist housing services team?

The specialist housing services team provides a range of equipment such as grab rails, bath seats and walking frames. This equipment helps people stay independent in their own homes.

In some cases, where equipment is not enough to keep people independent, the team can make adaptations to a person's home. For example, they might add ramps for wheelchair access.

## What help can they offer?

The specialist housing services team is committed to helping you stay in your own home by providing services such as:

- lending you equipment that will help you with daily tasks, such as going to the toilet or having a bath
- helping you with minor adaptations (small changes) to your home, such as fitting hand rails and ramps;
- helping you with major adaptations (large changes) to your home, such as fitting a lift and converting rooms
- helping you to move to a house that is easier for you to live in
- regularly checking and repairing lifting equipment in your home

## Where can I get more information?

You can contact the specialist housing team direct on 0161 607 1499. Or, visit [www.salford.gov.uk/disabled-adaptations](http://www.salford.gov.uk/disabled-adaptations) for more information.

You can also speak to your Housing Options Officer who can:

- give you more information about the help available to you
- provide you with an application pack
- help you get in contact with the service

Staying where you are

We can help you!
